Brush Program

Homeowners who prune their trees and shrubs should place the brush roadside with the cut ends facing the street. Branches cannot be longer than four feet in length and four inches in diameter. Brush piles cannot be larger than five feet tall and twenty-five feet long. Only one pile per household is allowed per scheduled pickup. Whole trees, logs, stumps, building material, and household debris are not accepted. Large quantities of branches pruned by a gardener or contractor must be removed by them.

The brush chipper will be in your zone one week every month except for the month of November, when the leaf vacuuming program takes place. Find your pickup week on the brush pickup schedule (printed on back). Then call the Highway Department (273-3561) the week before to schedule a pickup. Brush must be roadside by 7:00 a.m. on Monday of your pickup week.

Leaf and Bag Program

The leaf vacuuming program will take place from October 15 through November 25. Residents who prefer to bag their leaves must use biodegradable bags, which are for sale in the Highway Department office in Town Hall or available at home improvement stores.

Please follow these guidelines:

-  Refrain from parking on Town streets that are scheduled for leaf collection.
-  Leaves must be located in a row within three feet of the roadbed.
-  Keep leaves away from storm drains, mailboxes and fire hydrants.
-  Try not to place leaves roadside more than four days before scheduled pickup.

ABSOLUTELY no other debris may be mixed with leaves.

Call 811 Before You Dig

Building a deck? Planting a tree? Installing a mailbox? 811 is the new number to call before beginning any digging project. The new, federally mandated, national “Call Before You Dig” number — 811 — was created to help protect you from unintentionally hitting underground utility lines while working on digging projects.

Smart digging means calling 811 before each job. One call to 811 gets your underground utility lines marked for **FREE**. More information can be found at www.CALL811.com.

Town Right-of-Way and Driveways

A Highway Department permit is required for all work performed within the Town right-of-way (in most cases six to ten feet beyond edge of pavement). Under no circumstances are plantings, dog fences, sprinkler systems, or any type of structure to be installed within the Town right-of-way. Curb cuts must be approved by the Town Building Department (273- 8625) and driveways must be inspected by the Highway Department (273-3561) before any alterations begin.

Winter Safety and Snow Removal

In September, the North Castle Highway Department begins preparing for the winter months ahead by reviewing snow removal routes and servicing equipment. Top priority is given to the Town’s main roads. These are usually the main arteries running north/south or east/west that have double yellow center lines. To aid in snow removal, there is no overnight street parking from November 15 through April 1.

Please **do not**: place your garbage cans in the road; park vehicles in a cul-de-sac; leave snow in front of your mailbox or plowed snow in the road, as it is a hazard.

Please **do**: be neighborly and volunteer to shovel snow for the elderly or disabled.
