RE: Establishment of a Community Residential Facility for the Disabled at 14-16 Cole Drive in the Town of North Castle, New York by Paradigm Treatment Centers LLC

Dear Supervisor Schiliro:

In accordance with Section 41.34 of the New York Mental Hygiene Law, please consider this letter as formal notification of the interest and intent of Paradigm Treatment Centers LLC ("Paradigm") to establish a community residential facility for the mentally disabled in the Town of North Castle (the "Town").

Our agency has located a potential site for the proposed facility at 14-16 Cole Drive in the Town. This home will be converted to a community residential facility for the mentally disabled for up to eight (8) individuals suffering from mental illness, including depression, anxiety, trauma, grief, co-occurring substance use disorders and/or co-occurring eating disorders. Enclosed, please find a Fact Sheet (**Addendum A**) outlining the specific nature, size and community support requirements of the proposed facility as well as a brief description of the identified property and our geographic area of interest in the Town.

Paradigm offers a broad spectrum of therapy and rehabilitative services to adolescents and their families throughout the United States. One of our major service objectives is the establishment of community residences to enable individuals to reside in communities close to family and friends. Facilities of this type provide opportunities for normal life experiences, housing, meals, companionship and social events. Staff supervision, training in activities of daily living and clinical supports are provided. Daily activities would include individual and group therapy sessions, together with psycho education groups.

Under Section 41.34 of the Mental Hygiene Law, the Town has forty (40) days after the receipt of this letter to respond in one of the manners prescribed by statute. If the Town does not respond within forty (40) days, Paradigm may proceed to seek approval from the New York
