# Paint

---

## Household Paint- Preparation is Important!

Think of the potential mess a can of liquid paint can cause to the road, a truck or sanitation crew if it spills or splatters. Both oil-based paint and water-based or latex paint may be legally and safely disposed of in your garbage by following the simple instructions below.

### How to Prepare a Can of Paint for Disposal in the Garbage

**Empty Can of Paint:** Put it out next to the garbage with the lid off.\* (Do not include the empty can with your recyclables.)

**Can With Paint:** Harden paint by mixing it with kitty litter or another absorbent pellet material (such as Speedy-Dri) until no liquid remains. The more absorbent material added, the faster the paint will harden. To make more room for the absorbent material, full or partially full cans of paint should be poured off into empty cans or ones with less paint. Some paint stores may carry products specifically designed to harden waste paint. Ask stores for details.

After the paint is hard, put it out for garbage collection with the lid off.\*
