RPRC DETERMINATION LETTER

Project Name: FORSYTH - Pool
Street Location: 22 DAVIS DR
Zoning District: R-2A Property Acreage: 8.13 Tax ID: 94.04-2-1
RPRC DECISION: ☐ Requires Planning Board Review ☐ Requires Architectural Review Board
☐ Requires Conservation Board ☐ Requires Zoning Board of Appeals
☒ Submit to Building Department ☐ Requires Admin Wetlands Permit
Date: June 14, 2017

The above referenced application was reviewed by the Residential Project Review Committee (RPRC) on June 13, 2017.

The Committee determined that Planning Board and Architectural Review Board approval of the proposed project is NOT REQUIRED.

However, the following issues will need to be addressed prior to the issuance of a building permit:

- The property owner (22 Davis LLC) will need to submit authorization to submit the RPRC and Building Permit applications to the satisfaction of the Building Department.
- The 100' local wetland buffer should be shown on the plan for verification by the Town Wetland Consultant.
- The applicant shall perform deep and percolation soil testing to be witnessed by the Town Engineer. The test locations and results shall be shown on the plan. Contact the Town Engineer to schedule the testing.
- Provide stormwater mitigation design calculations for the runoff generated by the 25-year storm for the net increase in impervious surface or a 6 inch pool drawdown volume; whichever is greater. Provide details of the stormwater mitigation system.
- Provide rims, inverts, size and material for all drainage facilities. Provide details.
- Show the connection between the pool equipment and drawdown mitigation practice.

At this time you may coordinate directly with the North Castle Building Department. DO NOT START CONSTRUCTION WITHOUT A VALID BUILDING DEPARTMENT PERMIT.

If you would like to further discuss this matter, please do not hesitate to contact the Building Department.
