The above referenced application was reviewed by the Residential Project Review Committee (RPRC) on July 5, 2017.

The Committee determined that Planning Board and Architectural Review Board approval of the proposed project is NOT REQUIRED.

However, the following issues will need to be addressed prior to the issuance of a building permit:

- Submission of a Gross Land Coverage Calculations Worksheet and backup data to the satisfaction of the Building Department for the proposed new deck.
- The plan shall illustrate and quantify the limits of disturbance. The plan shall note that disturbance limits shall be staked in the field prior to construction.
- Include erosion control measures on the plan, including, but not limited to, temporary construction access, silt fence, etc. Provide details.
- Show the location of the existing septic primary and expansion areas on the plan. The plan shall show this area to be cordoned off during construction.

At this time you may coordinate directly with the North Castle Building Department. DO NOT START CONSTRUCTION WITHOUT A VALID BUILDING DEPARTMENT PERMIT.

If you would like to further discuss this matter, please do not hesitate to contact the Building Department.
