The above referenced application was reviewed by the Residential Project Review Committee (RPRC) on May 15, 2018.

The Committee determined that Planning Board and Architectural Review Board approval of the proposed project is NOT REQUIRED.

However, the following issues will need to be addressed prior to the issuance of a building permit:

- Provide a site plan that illustrates all existing and proposed improvements.
- The Gross Land Coverage Calculations on the plan should coordinate with the current submitted worksheets.
- All infiltration systems should be equipped with inspection ports and emergency overflows. Provide details.
- The plan shall illustrate and quantify the limits of disturbance. The plan shall note that disturbance limits shall be staked in the field prior to construction.
- Provide construction details for the proposed driveway.
- Show the location of the existing utilities (well, septic, etc.).
- Provide rims, inverts, size and material for all drainage facilities. Provide details.

At this time you may coordinate directly with the North Castle Building Department. DO NOT START CONSTRUCTION WITHOUT A VALID BUILDING DEPARTMENT PERMIT.

If you would like to further discuss this matter, please do not hesitate to contact the Building Department.
