The above referenced application was reviewed by the Residential Project Review Committee (RPRC) on December 19, 2017.

The Committee determined that Planning Board and Architectural Review Board approval of the proposed project is NOT REQUIRED.

However, the following issues will need to be addressed prior to the issuance of a building permit:

- The plan shall illustrate and quantify the limits of disturbance. The plan shall note that disturbance limits shall be staked in the field prior to construction.
- The existing greenhouse and deck shall be shown for removal on the site plan.
- Provide construction details for all proposed improvements, including, but not limited to, walkways, erosion controls, etc.
- The Applicant shall provide gross floor area backup information for all buildings on the site.

At this time you may coordinate directly with the North Castle Building Department. DO NOT START CONSTRUCTION WITHOUT A VALID BUILDING DEPARTMENT PERMIT.

If you would like to further discuss this matter, please do not hesitate to contact the Building Department.
