Street Location: GRESSEL PL

Zoning District: R-2A Property Acreage: 3.01 Tax ID: 108.03-3-19

RPRC DECISION: ☐ Requires Planning Board Review ☐ Requires Architectural Review Board

☒ Submit to Building Department ☒ Requires Admin Wetlands Permit

Date: November 15, 2016

The above referenced application was reviewed by the Residential Project Review Committee (RPRC) on November 15, 2016.

The Committee determined that Planning Board and Architectural Review Board approval of the proposed project is NOT REQUIRED.

However, the following issues will need to be addressed prior to the issuance of a building permit:

- An engineering site plan shall be provided that shows the entire property and all existing/proposed improvements.
- The plan shall illustrate and quantify the limits of disturbance. The plan shall note that disturbance limits shall be staked in the field prior to construction.
- Show all required minimum yard setbacks on the plan.
- The Building Department shall determine the need to refer the application to the Westchester County Department of Health (WCHD) for the bedroom count and/or additional floor area.
- Include erosion control measures on the plan, including, but not limited to, temporary construction access, silt fence, inlet protection, tree protection, erosion control blankets, construction sequence, etc. Provide details.
- It appears that disturbances are proposed within the locally-regulated 100 foot wetland buffer. A local Wetland Permit may be required. The applicant shall illustrate the local wetland boundary and regulated 100 foot buffer on the plan for verification by the Town Wetland Consultant. Notify the Town Engineer once the wetland boundary has been established in the field.

At this time you may coordinate directly with the North Castle Building Department. DO NOT START CONSTRUCTION WITHOUT A VALID BUILDING DEPARTMENT PERMIT.

If you would like to further discuss this matter, please do not hesitate to contact the Building Department
