June 12, 2014

To the Honorable Supervisor and Town Board of the Town of North Castle, New York

The Comprehensive Annual Financial Report (“CAFR”) for the Town of North Castle, New York (“Town”) for the fiscal year ended December 31, 2013 is herewith submitted. The New York State Comptroller’s Office requires the Town to submit an annual report of the financial record and transactions presented in conformity with generally accepted accounting principles (“GAAP”). The Town has elected to have these statement audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. This CAFR is issued pursuant to this requirement and Town Board policy.

This report consists of management’s responsibilities concerning the finances of the Town. Consequently, management assumes full responsibility for the completeness and reliability of all information present in this report. To provide a reasonable basis for making these representations, management of the Town has established a comprehensive internal control framework that is designed to both protect the Town’s assets from loss, theft or misuse and to compile sufficient, reliable information for the preparation of the Town’s financial statements in conformity with GAAP. Because the cost of internal controls should not out-weigh their benefits, the Town’s comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Town’s financial statements have been audited by Bonadio & Co., LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Town for the year ended December 31, 2013 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and assessing the accounting principles used and significant estimates made by management. The independent auditor concluded based upon the audit, that there was reasonable basis for rendering unqualified opinions that the Town’s basic financial statements, for the year ended December 31, 2013, are fairly presented in conformity with GAAP. The independent auditor’s report is presented as the first component of the financial section of this report. The financial section also includes a narrative introduction, overview and analysis of the December 31, 2013 financial statements to accompany the basic financial statements in the form of Management’s Discussion and Analysis (“MD&A”). This letter of transmittal is designed to complement the MD&A and should be read

in conjunction with it. The Town's MD&A can be found immediately following the report of the independent auditor.

Profile of the Town

The Town was incorporated in 1788 by New York State as separate political entity vested with independent taxing and debt authority. There are no incorporated villages situated within the Town's borders. The Town has portions of five independently governed school districts, which rely on the taxing powers granted by New York State to raise revenues for school district purposes. The school districts use the Town's assessment roll as the basis for taxation of property within the Town.

In 2012 the Town hired a Town Administrator, setting up a Town Board – Administrator form of governance. The Town Board is the legislative, appropriating, governing and policy determining body of the Town and consists of four councilpersons, elected at large to serve a four-year term, plus the Supervisor. Councilpersons may serve an unlimited number of terms. It is the responsibility of the Town Board to enact, by resolution, all legislation including ordinances and local laws. Annual budgets for the Town must be approved by the Board; modifications and transfers between budgetary appropriations also must be authorized by the Board on the recommendation of the Supervisor and Town Administrator.

The Town Supervisor is elected for a two-year term of office. The Supervisor is a full member of and the presiding officer of the Town Board. Duties of the Supervisor include that of the Chief Executive and Chief Financial Officers. The Town Administrator is the Town's Chief Operating Officer and handles the administration of the Town's daily functions, including contract negotiations and departmental management. Additionally, under the supervision of the Town Supervisor, the Town Administrator prepares the annual budget.

The Town provides a wide range of governmental services to its residents. Highway construction and maintenance of roads is a Town function. Recreation is provided and parks are maintained through the Town government. Water, sewer, lighting, fire protection and ambulance services are furnished by various special districts, which have been formed within the Town. Other services performed at the Town level include property assessment, police protection, zoning administration and planning. The Town provides refuse collection services to residential properties and pays the cost thereof from the General Fund.

The annual budget serves as the foundation for the Town's financial planning and control. All departments are required to file detailed estimates of revenues (other than real property taxes) and expenditures for the next fiscal year with the Town Administrator and Town Comptroller on or before October 20th. Estimates for each fire district situated within the Town must also be filed with the Comptroller by this date (the Town has no authority to amend the budget submitted by the fire districts). After reviewing these estimates, the Town Administrator prepares a tentative budget which includes his/her recommendations. A budget message explaining the main features of the budget is also prepared at this time. The tentative budget is filed with the Town Clerk no later than October 30th. Subsequently, the Town Administrator presents the tentative budget to the Town Board at the regular or special hearing, which must be held on or

before November 10th. The Town Board reviews the tentative budget and makes such changes as it deems necessary and that are consistent with the provision of the law. Following this review process, the tentative budget, including any modifications, as approved by the Town Board becomes the preliminary budget. A public hearing, notice of which must be duly published in the Town's official newspaper, on the preliminary budget is required to be held no later than December 10th. At the hearing, any person may express their opinion concerning the preliminary budget; however, there is no requirement or provision that the preliminary budget or any portion thereof be voted on by member of the public. After the public hearing, the Town Board may further change and revise the preliminary budget. The Town Board, by resolution, adopts the preliminary budget as submitted or amended no later than December 20th, at which time the preliminary budget becomes the adopted budget of the Town for the ensuing fiscal year. Budgetary control during the year is the responsibility of the Town Administrator and Supervisor. However, any changes or modification to the annual budget, including the transfer of appropriations among line items, must be approved by resolution of the Town Board. Budget to actual comparisons are provided in this report for each individual fund for which an annual budget has been adopted. For the General, Highway, Public Library and Special District funds, these comparisons are presented as part of the basic financial statements. For other governmental funds with annual budgets, the comparisons are presented in the governmental funds with annual budgets; the comparisons are presented in the governmental fund subsection of this report.

Factors Affecting Financial Condition

The information represented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town operates.

Local Economy

The Town is situated in the central portion of Westchester County, which continues to rank among the most affluent counties in the United States. The Town encompasses approximately 26 square miles and is primarily suburban residential in nature. However, the Town has a significant commercial base, which includes the world headquarters for International Business Machine ("IBM"), MBIA, Swiss Re and several other large corporations. The population of the Town, according to the 2010 estimated census, is 11,841, which represents an increase of 9% since the 2000 official census report.

Completed Projects

The following projects were implemented and/or completed:

- Transformation to a Council-Administrator form of government
- Maintained a minimum 20% Undesignated Fund Balance
- The approval and bidding for a \$9M water improvement project
- The upgrading and refurbishing of Parks and Recreation Facilities throughout the Town
- The repaving of over 10 miles of Town roads
- Implementation of vehicle replacement policy

- Replacement of computer equipment, including proprietary fiber network connecting multiple town facilities
- Replacement of Police Department RMS system

Long-Term Financial Planning

The Town's future projects include the following:

- The relocation of the Miller House, Washington's Headquarters, to North Castle property
- Credit review to regain AAA rating
- Utilize road maintenance plan to establish road repair priorities
- Establish Town vehicle and truck replacement schedule
- Potential purchase of pool for municipal use
- Review of town owned buildings and land for maximum benefit determination

Relevant Financial Policies

In 2010 the Town Board adopted a formal fund balance policy, establishing an unreserved/undesignated fund balance in the General Fund of 10% to 20% of Operating funds expenditures with a 5% minimum level required, unless unforeseen expenditures occur. If the Town's reserves fall below 10%, the policy requires the reserve balance to be restored within three to five years through financial operations. The Town continues to maintain reserves at adequate levels due to management's demonstrated commitment to being structurally balanced. The Town's investment policy and purchasing policy are adopted and reviewed annually. The Town's multi-year capital plan is reviewed and modified annually. Since the enactment of the tax cap, North Castle's annual tax increase has not exceeded the 2% cap.

Awards and Acknowledgments

The Town has been awarded a Certificate of Achievement for Excellence in Financial Reporting for its CAFR from the Government Finance Officers Associations ("GFOA") for the fiscal year ended December 31, 2012. This is the fourteenth consecutive year that the Town has received this award. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

Preparation of this report could not be accomplished without the efficient and dedicated services of the members of the entire Town Staff, as well as our independent auditor, who assisted in its preparation. Thank you to all who participated in the process.

Respectfully submitted,

Joan Goldberg
Town Administrator

INDEPENDENT AUDITOR'S REPORT

June 27, 2014

To the Town Board of
Town of North Castle, New York:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Town of North Castle, New York (Town), as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund of the Town as of December 31, 2013 and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

(Continued)

INDEPENDENT AUDITOR'S REPORT (Continued)

Report on Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and other post-employment benefits schedule of funding progress on pages 3 through 13 and 45-48 and page 49 respectively be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory section, comparative fund financial statements and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The comparative financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the comparative fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

TOWN OF NORTH CASTLE, NEW YORK

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED) DECEMBER 31, 2013

INTRODUCTION

As management of the Town of North Castle, New York (Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended December 31, 2013. It should be read in conjunction with the basic financial statements, which immediately follow this section, to enhance understanding of the Town's financial performance.

USING THIS ANNUAL REPORT

This annual report consists of a set of financial statements and notes. The Statement of Net Position and the Statement of Activities provide information about the activities of the Town as a whole and present a longer-term view of the Town's finances. Fund financial statements begin thereafter. For governmental activities, these statements tell how these services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds. The remaining statements provide financial information about activities for which the Town acts solely as a trustee or agent for the benefit of those outside of the government.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year ended 2013 are as follows:

- On the government-wide financial statements, the assets of the Town exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$22,467,570. However, unrestricted net position, which are available to meet the ongoing obligations of the Town, reflect a deficit of \$1,686,158 at December 31, 2013. The deficit results primarily from accrual of the annual other post-employment benefit obligations cost in accordance with the provisions of Government Accounting Standards Board ("GASB") Statement No.45.
- As of the close of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$14,383,940, representing an increase in fund balance of \$3,127,710 from the prior year. This was primarily due to cost containment initiatives.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$6,975,440 or 41.34% of total General Fund expenditures and other financing uses for 2013; an increase of \$2,286,261 from the previous year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Town's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator as to whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (for example, uncollected taxes, earned but unused vacation leave and other postemployment benefit obligations ("OPEB")).

The government-wide financial statements distinguish functions of the Town that are *governmental activities* (those principally supported by taxes and intergovernmental revenues). The governmental activities of the Town include general government support, public safety, health, transportation, economic opportunity and development, culture and recreation, home and community services and interest.

The government-wide financial statements can be found on the pages immediately following this section as the first two pages of the basic financial statements.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statements of revenues, expenditures, and changes in fund balances for the General Fund, Highway Fund, Public Library Fund, Special Districts Fund, Capital Projects Fund and Debt Service Fund, which are considered to be major funds.

FUND FINANCIAL STATEMENTS (Continued)

Governmental Funds (Continued)

The Town adopts an annual appropriated budget for its General Fund, Highway Fund, Public Library Fund and Special Districts Fund. A budgetary comparison statement has been provided for these funds within the basic financial statements to demonstrate compliance with the respective budgets. The governmental fund financial statements can be found in the basic financial statements section of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support Town programs. The Town maintains only one type of fiduciary fund that is known as an Agency Fund. The Town holds resources in this fund purely in a custodial capacity. The activity in this fund is limited to the receipt, temporary investment, and remittance of resources to the appropriate individual, organization, or government.

The fiduciary fund financial statements can be found in the basic financial statements section of this report.

NOTES TO FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements are located following the basic financial statements section of this report.

OTHER INFORMATION

Additional statements and schedules can be found immediately following the notes to financial statements. These include the comparative statements for the governmental funds and schedules of budget to actual comparisons.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the Town, assets exceeded liabilities and deferred inflows by \$22,467,570 at the close of 2013.

NET POSITION

	<u>Fiscal Year 2013</u>	<u>Fiscal Year 2012</u>	<u>Percent Change</u>
Assets:			
Current and other assets	\$ 52,717,812	\$ 48,862,287	8%
Capital assets, net	<u>34,928,397</u>	<u>34,936,884</u>	0%
Total assets	<u>87,646,209</u>	<u>83,799,171</u>	5%
Liabilities:			
Current liabilities	36,968,812	36,048,126	3%
Long-term debt outstanding	<u>28,178,432</u>	<u>27,398,124</u>	3%
Total liabilities	<u>65,147,244</u>	<u>63,446,250</u>	3%
Deferred inflows of resources	<u>31,395</u>	<u>-</u>	100%
Net position			
Investment in capital assets	19,232,497	17,780,215	8%
Restricted	4,921,231	4,834,354	2%
Unrestricted	<u>(1,686,158)</u>	<u>(2,261,648)</u>	-25%
Total net position	<u>\$ 22,467,570</u>	<u>\$ 20,352,921</u>	10%

Net Position Distribution December 31, 2013

By far, the largest component of the Town's net position is its investment in capital assets (land improvements, building improvements, infrastructure, machinery and equipment and construction-in-progress) (86%). The Town uses these capital assets to provide services to its citizens. Consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

NET POSITION (Continued)

The restricted net position of \$4,921,231 or 22%, represent resources that are subject to external restrictions on how they may be used. These restrictions are as follows:

	Fiscal Year 2013	Fiscal Year 2012	Percent Change
Capital projects	\$ -	\$ 544,836	-100%
Workers' compensation benefits	1,692	1,692	0%
Special districts	4,915,888	4,284,175	15%
Debt service	<u>3,651</u>	<u>3,651</u>	0%
Total	<u>\$ 4,921,231</u>	<u>\$ 4,834,354</u>	2%

Net position subject to external restrictions on how they may be used are \$24,153,728 the remaining balance of unrestricted net position, which is a deficit of \$1,686,158 must be financed from future operations. This deficit does not mean that the Town does not have resources available to meet its obligations in the ensuing year. Rather, it is the result of having long-term commitments of other postemployment benefit obligations (\$12.7 million) that are greater than currently available resources. Payments for these liabilities will be budgeted in the year that actual payment will be made.

Change in Net Position

	Fiscal Year 2013	Fiscal Year 2012	Percent Change
Revenue:			
Program revenue:			
Charges for services	\$ 3,906,098	\$ 3,855,431	1%
Operating grants and contributions	114,525	444,581	-74%
Capital grants and contributions	752,582	-	100%
General revenue:			
Real property taxes	21,010,015	20,318,166	3%
Other tax items	1,463,862	1,486,744	-2%
Non-property tax items	1,665,649	1,562,191	7%
Miscellaneous local sources	439,809	791,943	-44%
Use of money and property	75,040	59,935	25%
Sale of property and compensation for loss	367,069	608,440	-40%
State aid	<u>897,204</u>	<u>754,243</u>	19%
Total revenue	<u>30,691,853</u>	<u>29,881,674</u>	3%
Expenses:			
General support	4,171,299	3,563,786	17%
Public safety	9,148,519	8,982,600	2%
Health	306,612	281,807	9%
Transportation	5,694,950	4,476,680	27%
Economic assistance and opportunity	210,864	195,911	8%
Culture and recreation	4,628,823	4,753,269	-3%
Home and community services	4,103,472	4,199,220	-2%
Debt service	<u>312,665</u>	<u>517,320</u>	-40%
Total expenses	<u>28,577,204</u>	<u>26,970,593</u>	6%
Change in Net Position	<u>\$ 2,114,649</u>	<u>\$ 2,911,081</u>	-27%

GOVERNMENTAL ACTIVITIES

For the fiscal year ended December 31, 2013, revenues from governmental activities totaled \$30,691,853. Tax and other tax items revenues of \$22,473,877, comprised of real property taxes, other tax items and non-property taxes, represent the largest revenue source (71%). The \$2,114,649 increase in total governmental activities revenues from the prior year is the result of a combination of the following significant factors:

- Real property taxes increased by \$691,849 as the result of the amount of deferred taxes.
- Capital and operating grants and contributions increased \$417,987 as a result of operating grants in transportation, culture and recreation and home and community services.
- Non-property taxes and franchise fees increased by \$236,542 as the result an increase in sales tax collections cable TV franchise fees.

For the fiscal year ended December 31, 2013, expenses from governmental activities totaled \$28,577,204. The largest components of governmental activities expenses are public safety \$9,148,519 (33%), transportation \$5,694,950 (17%), culture and recreation \$4,628,823(18%), home and community services \$4,103,472(15%) and general government support \$4,171,299 (13%). Expenses increased from the prior year by \$1,606,611, or 6%, primarily as a result of a combination of the following significant factors:

- General government support and public safety increased by \$607,513 and \$165,999, respectively.
- Transportation decreased by \$1,218,270 primarily as a result of increased expenditures incurred in the previous year pertaining to Hurricane Irene and several winter storms, as well as, road repair.
- Home and community services decreased by \$95,748 primarily as a result of tight controls on expenditures.

GOVERNMENTAL ACTIVITIES (Continued)

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Town's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable resources*. Such information is useful in assessing the Town's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$14,383,939, an increase of \$3,127,710 compared to last years ending balance of \$11,256,229. This is now presented under the GASB Statement No. 54 fund balance classifications. The non-spendable fund balance component is \$602,927, consisting of amounts representing prepaid expenditures. Fund balance of \$5,343 is restricted for workers' compensation benefits and debts service. The assigned fund balance classification aggregates \$6,860,939, consisting primarily of amounts reserved for encumbrances and special districts. The remaining fund balance is unassigned and represents the remaining positive fund balance in the General Fund of \$6,905,031 after amounts that have been restricted, committed or assigned for other purposes

The General Fund is the primary operating fund of the Town. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$6,975,440, representing 91.3% of the total General fund balance of \$7,636,424. This is an increase from the prior year, when the total fund balance was \$5,299,567. Two useful measures of liquidity are the percentage of unassigned fund balance to total expenditures and total fund balance to total expenditures. As a result of the above discussion, at the end of the current fiscal year, the General Fund showed a 41.3% unassigned fund balance as compared to total expenditures and other financing uses, up from 29.5% in the prior year. Total fund balance increased 44% due to cost containment initiatives and improvements in revenues realized.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS (Continued)

Governmental Funds (Continued)

The fund balance of the General Fund increased by \$2,336,857 during the fiscal year ended December 31, 2013. Actual expenditures and other financing uses were \$1,617,292 less than the amount contained in the final budget, representing a savings of 9.6% of the total budget. Savings of \$883,882, \$303,940 and \$315,129 were achieved in the general government support, culture and recreation and home and community services respectively due to tight control on expenditures. The other savings were spread over the entire budget in no one particular area. Actual revenues and other financing sources exceeded the final budget by \$1,456,409, or 8%. The revenue categories that reflected significant positive variances as compared to the budget were real property taxes of \$348,801 resulting from a decrease in deferred property taxes, nonproperty tax items including sales tax of \$251,126 and NYS Aid amounting to \$211,614.

The budget variances noted above provided a positive impact in fund balance allowing the Town to meet its fund balance goals as set in the fund balance policy approved by the Town Board. The Town has designated none of the general fund balance to be used for real property tax relief in the 2014 fiscal year.

The Highway Fund's total fund balance at the end of the current fiscal year was \$1,668,904, an increase of \$694,123 from the previous year. The severe hurricane season several years, including Hurricane Irene and several winter storms resulted in federal aid received of \$353,393.

The Library Fund's total fund balance at the end of the current fiscal year was \$229,482, an increase of \$80,262 from the previous year. This was primarily the result of an increase in NYS Aid for the year.

The Special Districts Fund's total fund balance at the end of the current fiscal year was \$4,915,888, an increase of \$631,713 from the previous year. This was primarily due to an increase in departmental income and efficiencies in home and community service expenditures.

The Capital Projects Fund reflects a deficit fund balance of \$(70,409) at the end of the current fiscal year, a decrease of \$615,245 from the previous year. Total revenues and other financing sources aggregated \$441,771. This revenue was derived primarily from transfers in \$441,769. Capital outlay expenditures totaled \$874,362. These costs were primarily related to street Resurfacing, and water and sewer projects.

GENERAL FUND BUDGETARY HIGHLIGHTS

There was a positive variance between the original and final revenue budget versus the actual results for the General Fund, with the final budget at \$17,751,848 and the actual results at \$19,208,257 a positive variance of \$1,456,409. The largest component of this variance was \$740 thousand derived from primarily from a decrease in deferred taxes resulting from delayed collections and an increase in sales tax. The Town's General Fund expenditures experienced positive variances in all areas as cost cutting measures were implemented.

	<u>Original Budget</u>	<u>Final Budget</u>	<u>Actual (Budgetary Basis)</u>	<u>Final Budget Variance with Budgetary Actual</u>

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Town's investment in capital assets for governmental activities at December 31, 2013, net of \$33,153,107 of accumulated depreciation, was \$34,928,397. This investment in capital assets includes land, land improvements, buildings and improvements, infrastructure, machinery and equipment and construction-in-progress.

Major capital asset activity during the current fiscal year included the following:

Governmental Activities

- Purchase of police vehicles and software - \$190,000
- Purchase of Highway Department Equipment - \$265,000
- Other Town-wide capital purchases- \$430,000

Capital Assets (Net of Accumulated Depreciation)

	Fiscal Year 2013	Fiscal Year 2012	Percent Change
Land	\$ 3,036,047	\$ 3,036,047	0%
Land improvements	2,552,352	651,356	292%
Construction in progress	3,839,113	10,939,318	100%
Buildings and improvements	11,392,611	11,733,669	-3%
Machinery and equipment	3,399,056	2,861,299	19%
Infrastructure	10,709,218	5,715,195	87%
 Total capital assets	 <u>\$ 34,928,397</u>	 <u>\$ 34,936,884</u>	 0%

In 2013, the Town saw a slight decrease in its capital assets. The Town closed the windmill tank and sewer nitrogen removal projects to land improvements and infrastructure, respectively.

Long-term Debt

On December 7th, 2011, Moody's Investors Service reviewed and assigned a rating of Aa1 to the Town. The Aa1 rating reflects the Town's substantial, diverse and wealthy tax base that includes Fortune 500 corporate headquarters, a low debt burden and adequate reserve levels. The stable outlook reflects Moody's belief that the Town continues to restore structure balance and its reserves.

At the end of the current fiscal year, the Town had total bonded debt outstanding of \$14,984,000. As required by New York State Law, all bonds issued by the Town are general obligation bonds, backed by the full faith and credit of the Town. As a policy, principal and interest on debt issued by the enterprise fund must be repaid solely from revenues of that fund. Of the \$14,984,000 bonded debt outstanding at fiscal year-end, \$765,000 represents General Fund; \$2,350,000 Highway Fund and \$11,984,000 Special District debt.

CAPITAL ASSETS AND DEBT ADMINISTRATION (Continued)

Long-term Debt (Continued)

Known as the "constitutional debt limit", and pursuant to New York State Local Finance Law §104, the Town must limit total outstanding long-term debt to no more than 7% of the five-year average full valuation of real property. At December 31, 2013, the Town had exhausted 2.11% of its constitutional debt limit, and had the authority to issue an additional \$362,816,217 of general obligation long-term debt.

The Town anticipates a modest capital budget for 2013. Only essential equipment will be considered to maintain the Town's long range equipment replacement plan.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

According to the New York State Department of Labor, the unemployment rate for the Town was 5.1% as of December 2013. This compares favorably with the rate of 7.1% for New York State and with the 6.7% national unemployment rate. Real estate activity, particularly home financing and refinancing have started to show slight improvement in 2013, bringing the mortgage tax aid modestly up from the previous year. Town management was also aware that in 2013 there would be more increases in employee benefits (particularly medical insurance and retirement contributions). All of these factors were taken into consideration in developing the 2013 budget.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in those finances. Questions and comments concerning any of the information provided in this report should be addressed to:

FUND BALANCE - end of year	\$ 7,636,424	\$ 1,668,904	\$ 229,482	\$ 4,915,888	\$ (70,409)	\$ 3,651	\$ 14,383,940

The accompanying notes are an integral part of these statements.

TOWN OF NORTH CASTLE, NEW YORK

RECONCILIATION OF THE STATEMENT OF REVENUE, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2013

Net change in fund balances - governmental funds \$ 3,127,710

Amounts reported for governmental activities in the statement of activities
are different because:

Governmental funds report outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period.

Capital outlay expenditures	1,113,088
Depreciation expense	(1,121,575)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Real property taxes	(164,843)
---------------------	-----------

Issuance of long-term debt provides current financial resources to governmental funds but issuing debt increases long-term liabilities in the statement of net assets. Repayment of long-term debt principal is an expenditure in the governmental funds but the repayment reduces long-term liabilities in the statement of net assets. Also, governmental funds report the effect of issuance cost, premiums, discounts, and similar items when debt is issued, whereas these amounts are deferred and amortized on the statement of activities

Principal paid on bonds	1,049,000
-------------------------	-----------

Some expenses reported in the statement of activities do not require the use of current financial resources and; therefore, are not reported as expenditures in governmental funds.

Accrued interest	5,624
Compensated absences	356,834
Prepaid bond costs expensed	(45,046)
Other post employment benefit obligations	(2,206,143)

Change in net position of governmental activities	<u>\$ 2,114,649</u>
---	---------------------

The accompanying notes are an integral part of these statements.

TOWN OF NORTH CASTLE, NEW YORK

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of North Castle, New York ("Town") was established in 1788 and operates in accordance with Town Law and the various other applicable laws of the State of New York. The Town Board is the legislative body responsible for overall operation. The Town Supervisor serves as chief executive and chief financial officer. The Town provides the following services to its residents: public safety, health, transportation, economic opportunity and development, culture and recreation, home and community services and general and administrative support.

The accounting policies of the Town conform to generally accepted accounting principles as applicable to governmental units and the Uniform System of Accounts as prescribed by the State of New York. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the Town's more significant accounting policies:

A. Financial Reporting Entity

The financial reporting entity consists of a) the primary government which is the Town, b) organizations for which the Town is financially accountable and c) other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth by GASB.

In evaluating how to define the Town, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the Town's reporting entity was made by applying the criteria set forth by GASB, including legal standing, fiscal dependency and financial accountability. Based upon the application of these criteria, there are no other entities which would be included in the financial statements.

B. Government-Wide Financial Statements

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the Town as a whole. For the most part, the effect of interfund activity has been removed from these statements, except for interfund services provided and used.

The Statement of Net Position presents the financial position of the Town at the end of its fiscal year. The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods or services, or privileges provided by a given function or segment, (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment and (3) interest earned on grants that is required to be used to support a particular program. Taxes and other items not identified as program revenues are reported as general revenues. The Town does not allocate indirect expenses to functions in the Statement of Activities.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide Financial Statements (Continued)

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Fund Financial Statements

The accounts of the Town are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts which comprise its assets, liabilities, fund balances, revenues and expenditures. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The Town maintains the minimum number of funds consistent with legal and managerial requirements. The focus of governmental fund financial statements is on major funds as that term is defined in professional pronouncements. Each major fund is to be presented in a separate column, with non-major funds, if any, aggregated and presented in a single column. Fiduciary funds are reported by type. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, reconciliation is presented on the pages following, which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental activities column of the government-wide presentation. The Town's resources are reflected in the fund financial statements in two broad fund categories, in accordance with generally accepted accounting principles as follows:

- a. Governmental Funds - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The following are the Town's major governmental funds.
 - General Fund - The General Fund constitutes the primary operating fund of the Town and is used to account for and report all financial resources not accounted for and reported in another fund.
 - Special Revenue Funds - Special revenue funds are established to account for and report the proceeds of specific revenue sources that are restricted, committed or assigned to expenditures for specified purposes other than debt service or capital projects. The major special revenue funds of the Town are as follows:
 - Highway Fund - The Highway Fund is used to account for road and bridge maintenance and improvements as defined in the Highway Law of the State of New York.
 - Public Library Fund - The Public Library Fund is used to account for the activities of the Town's Public Library.
 - Special Districts Fund - The Special Districts Fund is provided to account for the operation and maintenance of the Town's water, sewer, street lighting, fire protection, parking and ambulance districts.
 - Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of major capital facilities and other capital assets.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Fund Financial Statements (Continued)

a. Governmental Funds (Continued)

- Debt Service Fund - The Debt Service Fund is provided to account for and report financial resources that are restricted, committed or assigned to expenditures for principal and interest and for financial resources that are being accumulated for principal and interest maturing in future years.

b. Fiduciary Funds (Not Included in Government-Wide Financial Statements) - Fiduciary funds are used to account for assets held by the Town in an agency capacity on behalf of others. The Town has two types of fiduciary funds:

- Private purpose trust funds - These funds are used to account for assets held by the Town in accordance with terms of a trust agreement. Established criteria govern the use of the funds.
- Agency funds - These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the Town as agent for various deposits that are payable to other jurisdictions or individuals.

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources (current assets less current liabilities) or economic resources (all assets and liabilities). The basis of accounting indicates the timing of transactions or events for recognition in the financial reports.

The government-wide financial statements are reported using the economic *resources measurement focus* and the *accrual basis of accounting*. The Agency Fund has no measurement focus and utilizes the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider has been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes are considered to be available if collected within sixty days of the fiscal year end. A ninety day availability period is used for revenue recognition for all other governmental fund revenues. Property taxes associated with the current fiscal period as well as charges for services and intergovernmental revenues are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Fees and other similar revenues are not susceptible to accrual because generally they are not measurable until received in cash. If expenditures are the prime factor for determining eligibility, revenues from Federal and State grants are accrued when the expenditure is made. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and other post-employment benefit obligations are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Net Position or Fund Balances

Deposits, Investments and Risk Disclosure

- Cash and Cash Equivalents - Cash and cash equivalents consist of funds deposited in demand deposit accounts, time deposit accounts and certificates of deposit with original maturities of less than three months.

The Town's deposit and investment policies are governed by State statutes. The Town has adopted its own written investment policy which provides for the deposit of funds in FDIC insured commercial banks or trust companies located within the State. The Town is authorized to use demand deposit accounts, time deposit accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury, U.S. Agencies, repurchase agreements and obligations of New York State or its political subdivisions and accordingly, the Town's policy provides for no credit risk on investments.

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by Federal deposit insurance. The Town has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligations that may be pledged as collateral. Such obligations include, among other instruments, obligations of the United States and its agencies and obligations of the State and its municipal and school district subdivisions.

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. GASB Statement No. 40 directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either uncollateralized, collateralized by securities held by the pledging financial institution or collateralized by securities held by the pledging financial institution's trust department but not in the Town's name. The Town's aggregate bank balances that were not covered by depository insurance were not exposed to custodial credit risk at December 31, 2013.

- Investments - The Town participates in the Cooperative Liquid Assets Securities System ("CLASS"), a cooperative investment pool, established pursuant to General Municipal Law that meets the definition of a 2a7-like pool. In accordance with the provisions of General Municipal Law, Article 3A, CLASS has designated Cutwater Asset Management, a wholly owned subsidiary of MBIA, Inc. as its registered investment advisor. MBIA, Inc. is registered with the Securities and Exchange Commission ("SEC"), and is subject to all of the rules and regulations of an investment advisor handling public funds. As such, the SEC provides regulatory oversight of CLASS.

CLASS is authorized to invest in various securities issued by the United States and its agencies. The amount represents the amortized cost of the cooperative shares and is considered to approximate fair value. The Town's position in CLASS is equal to the value of the shares. Additional information concerning CLASS is presented in the annual report which may be obtained from MBIA Municipal Investors Service Corporation, 113 King Street, Armonk, NY 10504.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Net Position or Fund Balances (Continued)

Deposits, Investments and Risk Disclosure (Continued)

- **Investments (Continued)**

CLASS is rated AAA by Standard & Poor's Ratings. Local government investment cooperatives in this rating category meet the highest standards for credit quality, conservative investment policies and safety of principal. CLASS invests in a high quality portfolio of investments legally permissible for municipalities and school districts in the State.

The Town was invested only in the above mentioned obligations and, accordingly, was not exposed to any interest rate or credit risk.

- **Restricted Investments** - Restricted investments of the Capital Projects Fund consist of bond proceeds held by a State agency. These funds are to be used for the Town's Sewer Nitrogen Removal capital project.
- **Taxes Receivable** - Real property taxes attach as an enforceable lien on real property and are levied on January 1st. The Town collects county, town, highway and special districts taxes which are due April 1st and payable without penalty to April 30th. School districts taxes for the period July 1st to June 30th are levied on July 1st and are due on September 1st with the first half payable without penalty until September 30th and the second half payable without penalty until January 31st. The Town guarantees the full payment of the County and school districts warrants and assumes the responsibility for uncollected taxes. The Town also has the responsibility for conducting in-rem foreclosure proceedings.

The Town functions in both a fiduciary and guarantor relationship with the County of Westchester and the various school districts located within the Town with respect to the collection and payment of real property taxes levied by such jurisdictions. County taxes are included in the Town's levy and are payable without penalty for thirty days. The County Charter provides for the Town to collect County and school districts taxes and remit them as collected to the respective municipality. However, the Town must remit to the County sixty percent of the amount levied by May 25th and the balance of forty percent on October 15th. With respect to school district taxes, the Charter provides that the Town satisfy the warrant of each school district by April 5th. Thus, the Town's fiduciary responsibility is from the date of the levy until the due date of the respective tax warrant at which time the Town must satisfy its obligation to the municipalities regardless of the amounts collected. The County tax warrant is due in October and uncollected County taxes have been accounted for in a manner similar to Town taxes. The collection of school districts taxes is deemed a financing transaction until the warrants are satisfied.

- **Other Receivables** - Other receivables include amounts due from other governments and individuals for services provided by the Town. Receivables are recorded and revenues recognized as earned or as specific program expenditures are incurred. Allowances are recorded when appropriate.
- **Due From/To Other Funds** - During the course of its operations, the Town has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of December 31, 2013, balances of interfund amounts receivable or payable have been recorded in the fund financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Net Position or Fund Balances (Continued)

Deposits, Investments and Risk Disclosure (Continued)

- Inventory - There are no inventory values presented in the balance sheets of the respective funds of the Town. Purchases of inventoriable items at various locations are recorded as expenditures at the time of purchase and year-end balances at these locations are not material.
- Prepaid Expenses/Expenditures - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method in both the government-wide and fund financial statements. Prepaid expenses/expenditures consist of employee retirement and other costs which have been satisfied prior to the end of the fiscal year, but represent items which have been provided for in the subsequent years budget and will benefit such periods. Reported amounts in the fund financial statements are equally offset by nonspendable fund balance, in the fund financial statements, which indicates that these amounts do not constitute "available spendable resources" even though they are a component of current assets.
- Capital Assets - Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items) are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the Town chose to include all such items regardless of their acquisition date or amount. The Town was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and used an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year).

Major outlays for capital assets and improvements are capitalized as projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives is not capitalized.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Net Position or Fund Balances (Continued)

Deposits, Investments and Risk Disclosure (Continued)

- Capital Assets (Continued)

Land and construction-in-progress are not depreciated. Property, plant, equipment and infrastructure of the Town are depreciated using the straight line method over the following estimated useful lives.

	<u>Life in Years</u>
Land improvements	20
Buildings and improvements	20-50
Infrastructure	30-50
Machinery and equipment	5-20

The costs associated with the acquisition or construction of capital assets are shown as capital outlay expenditures on the governmental fund financial statements. Capital assets are not shown on the governmental funds balance sheet.

- Unearned/Deferred Revenues - Unearned/deferred revenues arise when assets are recognized before revenue recognition criteria has been satisfied. In government-wide financial statements, unearned revenues consist of revenue received in advance and/or revenue from grants received before the eligibility requirements have been met.

Unearned revenues in fund financial statements are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met. The Town has reported unearned revenues of \$2,400,826 for real property taxes in the General Fund, \$31,395 for fees received in advance in the Special Districts Fund. Such amounts have been deemed to be measurable but not "available" pursuant to generally accepted accounting principles.

- Long-Term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Assets. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as Capital Projects or Debt Service funds expenditures.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Net Position or Fund Balances (Continued)

Deposits, Investments and Risk Disclosure (Continued)

- **Compensated Absences** - The various collective bargaining agreements provide for the payment of accumulated vacation and sick leave upon separation from service. The liability for such accumulated leave is reflected in the government-wide Statement of Net Assets as current and long-term liabilities. A liability for these amounts is reported in the governmental funds only if the liability has matured through employee resignation or retirement. The liability for compensated absences includes salary related payments, where applicable.
- **Net Position** - Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position on the Statement of Net Position include, invested in capital assets, restricted for capital projects, workers' compensation benefits, special districts and debt service. The balance is classified as unrestricted.
- **Fund Balances** - Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard the fund balance classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is to be reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification will be used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law.

Committed fund balance will be reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. These funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain designations established and approved by the entity's governing board.

Assigned fund balance, in the General Fund, will represent amounts constrained either by the entity's highest level of decision making authority or a person with delegated authority from the governing board to assign amounts for a specific intended purpose. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. This classification will include amounts designated for balancing the subsequent year's budget and encumbrances. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Assets, Liabilities and Net Position or Fund Balances (Continued)

Deposits, Investments and Risk Disclosure (Continued)

- **Fund Balances (Continued)**

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Town's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Town's policy to use fund balance in the following order: committed, assigned and unassigned.

F. Encumbrances

In governmental funds, encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve applicable appropriations, is generally employed as an extension of formal budgetary integration in the General, Highway, Public Library and Special Districts fund. Encumbrances outstanding at year-end are reported as assigned fund balance since they do not constitute expenditures or liabilities

G. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

H. Reclassifications

Certain reclassifications have been made to the 2013 statements to conform to the current year presentation.

2. STEWARDSHIP COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Data

The Town generally follows the procedures enumerated below in establishing the budgetary data reflected in the financial statements:

- a) Prior to October 20th, the head of each administrative unit shall submit to the budget officer an estimate of revenues and expenditures for such administrative unit for the ensuing year.
- b) The budget officer, upon completion of the review of the estimates, shall prepare a tentative budget and file such budget in the office of the Town Clerk on or before October 30th.
- c) On or before November 10th, the Town Clerk shall present the tentative budget to the Town Board.
- d) The Town Board shall review the tentative budget and may make such changes, alterations and revisions as it shall consider advisable and which are consistent with law. Upon completion of such review, the tentative budget and any modifications, as approved by the Town Board, shall become the preliminary budget.
- e) On or before December 10th, the Town Board shall hold a public hearing on the preliminary budget.
- f) After the public hearing, the Town Board may further change, alter and revise the preliminary budget subject to provisions of the law.
- g) The preliminary budget as submitted or amended shall be adopted by resolution no later than December 20th.
- h) Formal budgetary integration is employed during the year as a management control device for General, Highway, Public Library, Special Districts and Debt Service funds.
- i) Budgets for General, Highway, Public Library, Special Districts and Debt Service funds are legally adopted annually on a basis consistent with generally accepted accounting principles. The Capital Projects Fund is budgeted on a project basis. An annual budget is not adopted for the Special Purpose Fund.
- j) The Town Board has established legal control of the budget at the function level of expenditures. Transfers between appropriation accounts, at the function level, require approval by the Town Board. Any modification to appropriations resulting from increases in revenue estimates or supplemental reserve appropriations also require a majority vote by the Board.
- k) Appropriations in General, Highway, Public Library, Special Districts and Debt Service funds lapse at the end of the fiscal year, except that outstanding encumbrances are reappropriated in the succeeding year pursuant to the Uniform System of Accounts promulgated by the Office of the State Comptroller.

B. Property Tax Limitation

The Town is not limited as to the maximum amount of real property taxes which may be raised (See Note 5).

C. Application of Accounting Standards

No new accounting standards were adopted in the current year

3. DETAILED NOTES ON ALL FUNDS

A. Cash and Cash Equivalents and Investments

As of December 31, 2013, all of the Town's cash and cash equivalents and investment balances were either insured or collateralized with securities held by the pledging financial institution's trust department in the Town's name:

	<u>Bank Balance</u>	<u>Carrying Amount</u>
Cash and cash equivalents, including trust and agency funds	<u>\$ 27,289,193</u>	<u>\$ 26,957,877</u>
Collateralized with securities held by the pledging financial institution's trust department or agent in the Town's name	\$ 26,039,193	
Covered by FDIC insurance	<u>1,250,000</u>	
Total	<u>\$ 27,289,193</u>	

B. Restricted Investments

The Town received long-term financing from the Environmental Facilities Corporation for the sewer treatment plant upgrades. At December 31, 2013 there were \$113,390 of unspent proceeds in the name of the Town being held as a restricted investment to be allocated to the 2014 principal debt payment.

3. DETAILED NOTES ON ALL FUNDS (Continued)

C. Taxes Receivable

Taxes receivable at December 31, 2013 consisted of the following:

	Town and County Taxes	School District Taxes	Total
Current year	\$ 352,480	\$ 24,696,683	\$ 25,049,163
Overdue	304,876	740,068	1,044,944
	<u>\$ 657,356</u>	<u>\$ 25,436,751</u>	26,094,107
Allowance for uncollectible taxes			<u>(116,141)</u>
			<u>\$ 25,977,966</u>

School districts taxes are offset by liabilities to the school districts which will be paid no later than April 5, 2013. Taxes receivable in the fund financial statements are also partially offset by deferred tax revenues of \$2,400,826, which represents an estimate of the receivable which will not be collected within the first sixty days of the subsequent year.

D. Due from/to Other Funds

The balances reflected as due from/to other funds at December 31, 2013 were as follows:

	Interfund	
	Receivable	Payable
Sewer District No. 2 fund	\$ 3,500	\$ -
Water District No. 1 fund	-	404,902
Water District No. 2 fund	-	404,902
Capital project fund	<u>809,804</u>	<u>3,500</u>
Total government activities	<u>\$ 813,304</u>	<u>\$ 813,304</u>

The outstanding balance between funds result mainly from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system and 3) payments between funds are made.

3. DETAILED NOTES ON ALL FUNDS (Continued)

E. Capital Assets

Changes in the Town's capital assets are as follows:

	December 31, 2012 Balance	Additions	Disposals	December 31, 2013 Balance
Governmental activities:				
Capital assets that are not depreciated:				
Land	\$ 3,036,047	\$ -	\$ -	\$ 3,036,047
Construction in progress	10,939,318	232,459	7,332,664	3,839,113
Total non-depreciable cost	13,975,365	232,459	7,332,664	6,875,160
Capital assets that are depreciated:				
Land Improvements	1,993,510	1,986,094	-	3,979,604
Buildings and improvements	17,365,403	-	-	17,365,403
Machinery and equipment	8,046,575	880,629	-	8,927,204
Infrastructure	25,587,563	5,346,570	-	30,934,133
Total depreciable historical cost	52,993,051	8,213,293	-	61,206,344
Less accumulated depreciation:				
Land Improvements	1,342,154	85,098	-	1,427,252
Buildings and improvements	5,631,734	341,058	-	5,972,792
Machinery and equipment	5,185,276	342,872	-	5,528,148
Infrastructure	19,872,368	352,547	-	20,224,915
Total accumulated depreciation	32,031,532	1,121,575	-	33,153,107
Total cost, net	\$ 34,936,884	\$ 7,324,177	\$ 7,332,664	\$ 34,928,397

3. DETAILED NOTES ON ALL FUNDS (Continued)

E. Capital Assets (Continued)

Depreciation expense was charged to the Town's functions and programs as follows:

General governmental support	\$	79,270
Public safety		71,611
Transportation		199,747
Economic assistance and opportunity		3,203
Culture and recreation		240,487
Home and community services		<u>527,257</u>
Total depreciation expense	\$	<u>1,121,575</u>

F. Pension Plans

The Town participates in the New York State and Local Employees' Retirement System ("ERS") and the New York State and Local Police and Fire Retirement System ("PFRS") ("Systems"). These Systems are cost-sharing multiple-employer defined benefit pension plans. The Systems provide retirement, disability and death benefits to plan members. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law. The Systems issue a publicly available financial report that includes financial statements and required supplementary information for the Systems. That report may be obtained by writing to the New York State and Local Employees' Retirement System, 110 State Street, Albany, New York 12224.

Funding Policy - The Systems are non-contributory except for employees who joined the New York State and Local Employees' Retirement System after July 27, 1976, who contribute 3% of their salary for the first ten years of service. For employees who joined after April 1, 2012, employees in NYSERS contribute 3% of their salary until April 1, 2013 and then contribute 3% to 6% of their salary throughout their active membership.

Contributions made to the Systems for the current and two preceding years were as follows:

	ERS	PFRS
2013	\$ 1,298,690	\$ 1,083,238
2012	1,143,434	810,757
2011	1,077,954	808,656

The ERS and PFRS contributions were equal to 100% of the actuarially required contribution for each respective fiscal year

The current ERS contribution for the Town was charged to various departments within the funds identified below.

Since 1989, the System's billings have been based on Chapter 62 of the Laws of 1989 of the State of New York. This legislation requires participating employers to make payments on a current basis, while amortizing existing unpaid amounts relating to the System's fiscal years ending March 31, 1988 and 1989 (which otherwise were to have been paid on June 30, 1989 and 1990, respectively) over a 17-year period, with an 8.5% interest factor added. Local governments were given the option to prepay this liability. The Town elected to make the full payment on December 15, 1989.

3. DETAILED NOTES ON ALL FUNDS (Continued)

G. Short-Term Non-Capital Borrowings

The schedule below details the changes in short-term non-capital borrowings.

Non-Capital related BANS

	Year of original issue	Maturity Date	Rate of interest	Beginning Balance	Issued	Redeemed	Ending Balance
Highway settlement	2011	2014	0.89%	284,432	-	77,432	207,000
				<u>\$ 284,432</u>	<u>\$ -</u>	<u>\$ 77,432</u>	<u>\$ 207,000</u>

The bond anticipation note was issued to finance the cost of a legal settlement in the Highway Fund.

Interest expense of \$1,013 was recorded in the government-wide financial statements.

H. Short-Term Capital Borrowings

The schedule below details the changes in short-term capital borrowings.

Capital related BANS

	Year of original issue	Maturity Date	Rate of interest	Beginning Balance	Issued	Redeemed	Ending Balance
Bond anticipation notes payable:							
Highway equipment 2008/2009	2008	2014	0.89%	\$ 79,437	\$ -	\$ 79,437	\$ -
Open space acquisition	2008	2014	0.89%	49,800	-	24,900	24,900
Lombardi park	2008	2014	0.89%	70,000	-	70,000	-
Windmill tank	2011	2014	0.89%	320,000	-	80,000	240,000
NWP painting	2011	2014	0.89%	320,000	-	80,000	240,000
				<u>\$ 839,237</u>	<u>\$ -</u>	<u>\$ 334,337</u>	<u>\$ 504,900</u>

Liabilities for bond anticipation notes are generally accounted for in the Capital Projects Fund. Bond anticipation notes issued for judgments or settled claims are recorded in the fund paying the claim. Principal payments on bond anticipation notes must be made annually. State law requires that bond anticipation notes issued for capital purposes or judgments be converted to long-term obligations generally within five years after the original issue date. However, bond anticipation notes issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made.

Interest expenditures were recorded in the fund financial statements identified below. Interest expense of \$13,655 was recorded in the government-wide financial statements for governmental activities.

3. DETAILED NOTES ON ALL FUNDS (Continued)

I. Long-Term Liabilities

The following table summarizes changes in the Town's long-term indebtedness for the year ended December 31, 2013:

	Beginning Balance	Issued	Redeemed	Ending Balance	Amounts Due Within One Year
Government activities:					
Bonds and notes payable:					
General obligation debt:					
Capital construction	\$ 16,033,000	\$ -	\$ 1,049,000	\$ 14,984,000	\$ 954,000
Other liabilities:					
Other postemployment benefits	10,452,187	3,328,099	1,121,956	12,658,330	-
Compensated absences	1,846,937	-	356,834 (A)	1,490,103	-
Total other liabilities	12,299,124	3,328,099	1,478,790	14,148,433	-
Total long-term liabilities	\$ 28,332,124	\$ 3,328,099	\$ 2,527,790	\$ 29,132,433	\$ 954,000

(A) Additions and deletions to compensated absences are shown net because it is impracticable to determine these amounts separately.

The liability for compensated absences and other post-employment benefit obligations are liquidated primarily by the General, Highway, Public Library and Special Districts funds. The Town's indebtedness for bonds is satisfied by the Debt Service Fund, which is primarily funded by the General, Highway and Special Districts funds.

Bonds Payable

Bonds payable at December 31, 2013 are comprised of the following individual issues:

Bond Issue	Balance	Issued	Maturity	Interest Rate	Balance
Firehouse acquisition	\$ 1,100,000	2004	2024	3.975%	\$ 650,000
Firehouse acquisition	1,100,000	2006	2026	3.973%	765,000
Public improvements	2,380,000	2007	2022	3.625%	1,615,000
Sewer No. 2 treatment plant upgrade	4,223,583	2007	2037	3.630%	3,460,000
Sewer nitrogen removal - Environmental Facilities Corporation	5,245,000	2009	2033	4.270%	4,429,000
Refunding bonds	1,740,000	2010	2021	2.000%	1,175,000
Public improvements	645,000	2010	2026	1.250%	540,000
Public improvements	2,500,000	2011	2026	1.50% - 2.65%	2,350,000
					<u>\$ 14,984,000</u>

Interest expenditures of \$318,289 were recorded in the fund financial statements in the Debt Service Fund. Interest expense of \$312,665 was recorded in the government-wide financial statements for governmental activities.

3. DETAILED NOTES ON ALL FUNDS (Continued)

I. Long-Term Liabilities (Continued)

Payments to Maturity

The annual requirements to amortize all bonded debt outstanding as of December 31, 2013 including interest payments of \$3,651,310 are as follows:

	<u>Principle</u>	<u>Interest</u>	<u>Total</u>
Fiscal Year Ending December 31,			
2014	\$ 954,000	\$ 408,336	\$ 1,362,336
2015	904,000	382,124	1,286,124
2016	929,000	355,999	1,284,999
2017	944,000	331,092	1,275,092
2018	979,000	304,426	1,283,426
2019-2023	4,680,000	1,073,657	5,753,657
2024-2028	2,786,000	518,284	3,304,284
2029-2033	2,188,000	239,542	2,427,542
2034-2037	<u>620,000</u>	<u>37,850</u>	<u>657,850</u>
Totals	<u>\$ 14,984,000</u>	<u>\$ 3,651,310</u>	<u>\$ 18,635,310</u>

The above general obligation bonds are direct obligations of the Town, for which its full faith and credit are pledged and are payable from taxes levied on all taxable real property within the Town.

Compensated Absences

In accordance with the Town's collective bargaining agreements, all employees may accumulate sick leave based upon length of service. Upon retirement, employees are compensated for accumulated sick leave pursuant to contract provisions. Vacation time earned during the year is generally taken in the year earned, however, with permission; certain employees may carryover vacation leave to the following year. Police employees may accumulate compensatory time up to a maximum of 96 hours. The value of compensated absences has been reflected in the government-wide financial statements.

Other Post Employment Benefit Obligations Payable

In addition to providing pension benefits, the Town provides certain health care benefits for retired employees through a single employer defined benefit plan. The various collective bargaining agreements stipulate the employees covered and the percentage of contribution. Contributions by the Town may vary according to length of service. The cost of providing post-employment health care benefits is shared between the Town and the retired employee. Substantially all of the Town's employees may become eligible for those benefits if they reach normal retirement age while working for the Town. The cost of retiree health care benefits is recognized as an expenditure as claims are paid in the fund financial statements. The Town has recognized revenues and expenditures of approximately \$25,000 for Medicare Part D payments made directly to its health insurance carrier on behalf of its retirees.

3. DETAILED NOTES ON ALL FUNDS (Continued)

I. Long-Term Liabilities (Continued)

Other Post Employment Benefit Obligations Payable (Continued)

The Town's annual other post-employment benefit ("OPEB") cost (expense) is calculated based on the annual required contribution, ("ARC"), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. GASB Statement No. 45 establishes standards for the measurement, recognition and display of the expenses and liabilities for retirees' medical insurance. As a result, reporting of expenses and liabilities will no longer be done under the "pay-as-you-go" approach. Instead of expensing the current year premiums paid, a per capita claims cost will be determined, which will be used to determine a "normal cost", an "actuarial accrued liability", and ultimately the ARC. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. In addition, the assumptions and projections utilized do not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. The actuarial calculations of the OPEB plan reflect a long-term perspective.

The Town is required to accrue on the government-wide financial statements the amounts necessary to finance the Plan as actuarially determined, which is equal to the balance not paid by plan members. Funding for the Plan has been established on a pay-as-you-go basis. The assumed rates of increase in postretirement benefits are as follows:

<u>Year Ended</u>	<u>Rates</u>		
	<u>Non Medicare</u>	<u>Medicare</u>	<u>Dental and Vision</u>
2014	7.50%	5.00%	5.00%
2015	7.00%	5.00%	5.00%
2016	6.50%	5.00%	5.00%
2017	6.00%	5.00%	5.00%
2018	5.50%	5.00%	5.00%
2019+	5.00%	5.00%	5.00%

The amortization basis is the level percentage of projected payroll method with an open amortization approach with 25 years remaining in the amortization period. The actuarial assumptions included a 4.0% investment rate of return and a 2.5% annual payroll growth rate. The Town currently has no assets set aside for the purpose of paying post-employment benefits. The actuarial cost method utilized was the entry age normal cost method.

3. DETAILED NOTES ON ALL FUNDS (Continued)

I. Long-Term Liabilities (Continued)

Other Post Employment Benefit Obligations Payable (Continued)

The estimated number of participants as of December 31, 2013 was as follows:

Active employees	122
Retired employees	<u>77</u>
Total	<u>199</u>

Annual required contribution	\$3,392,999
Interest on net OPEB obligation	418,087
Adjustment to ARC	<u>(482,987)</u>

Annual OPEB cost (expense)	3,328,099
Contributions made	<u>(1,121,956)</u>

Increase in net OPEB obligation	2,206,143
---------------------------------	-----------

Net OPEB obligation - beginning of year	<u>10,452,187</u>
---	-------------------

Net OPEB obligation - end of year	<u>\$ 12,658,330</u>
-----------------------------------	----------------------

Percentage of annual OPEB cost contributed	34%
--	-----

The Town's annual OPEB cost, the percentage of Annual OPEB cost contributed to the plan, and the net OPEB obligation for the current and two preceding years is as follows:

<u>Year Ended</u>	<u>OPEB Cost</u>	<u>Contribution (ARC)</u>	<u>OPEB Cost Contributed</u>	<u>% of ARC Contributed</u>	<u>OPEB Obligation</u>
12/31/13	\$ 3,328,099	\$ 3,328,099	\$ 1,121,956	34%	\$ 12,658,330
12/31/12	3,158,811	3,158,811	1,217,462	39%	10,452,187
12/31/11	3,160,255	3,160,255	942,461	30%	8,510,838

The schedule of funding progress for the OPEB plan immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing relative to the actuarial accrued liability for the benefits over time.

3. DETAILED NOTES ON ALL FUNDS (Continued)

J. Revenues and Expenditures

Interfund Transfers

Interfund transfers are defined as the flow of assets, such as cash or goods and services, without the equivalent flow of assets in return. The interfund transfers reflected below have been reflected as transfers:

	Interfund	
	<u>Revenue</u>	<u>Expenditures</u>
General fund	\$ 4,721	\$ 860,236
Highway fund	499,415	263,782
Special districts fund	-	951,902
Capital fund	441,769	182,654
Debt service fund	<u>1,312,669</u>	<u>-</u>

Transfers are used to 1) move revenues from the fund with collection authorization to the Debt Service Fund as debt service principal and interest payments become due and 2) to move amounts earmarked in the operating funds to fulfill commitments for Capital Projects Fund expenditures.

K. Net Position

The components of net position are detailed below:

Invested in Capital Assets - the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

Restricted for Capital Projects - the component of net position that reports the amounts restricted for capital projects, exclusive of unexpended bond proceeds and unrestricted interest earnings.

Restricted for Workers' Compensation Benefits - the component of net position that has been established to set aside funds to be used for a specific purpose in accordance with Section 6-j of the General Municipal Law of the State of New York.

Restricted for Special Districts - the component of net position that represents funds restricted for water, sewer, street lighting, fire protection, parking and ambulance purposes under New York State Law or by external parties and/or statutes.

Restricted for Debt Service - the component of net position that reports the difference between assets and liabilities with constraints placed on their use by Local Finance Law.

Unrestricted - all other net position that do not meet the definition of "restricted" or "invested in capital assets".

3. DETAILED NOTES ON ALL FUNDS (Continued)

L. Fund Balances

The components of fund balance are detailed below:

Certain elements of restricted fund balance are described above. Those additional elements which are not reflected in the Statement of Net Position but are reported in the governmental funds balance sheet are described below.

Prepaid Expenditures has been established to account for employee retirement and other payments made in advance. The amount is classified as nonspendable to indicate that funds are not "available" for appropriation or expenditure even though they are a component of current assets.

Open Space represents funds which the Town will use to acquire and/or develop recreational facilities and open space. The amount is classified as committed to indicate that Town Board approval is needed in order to spend these funds.

Purchases on order are assigned and represent the Town's intention to honor the contracts in process at year-end. The subsequent year's appropriations will be amended to provide authority and complete the transactions.

Designations of fund balance are not legally required segregations but represent intended use for a specific purpose. At December 31, 2013, the Town Board has assigned the amounts below to be appropriated from the ensuing years budget.

Unassigned fund balance in the General Fund represents amounts not classified as nonspendable, restricted, committed or assigned.

	<u>General Fund</u>	<u>Highway Fund</u>	<u>Public Library Fund</u>	<u>Special Districts Fund</u>	<u>Capital Projects Fund</u>	<u>Debt Service Fund</u>	<u>Total</u>
Nonspendable							
Prepaid expenditures	602,927	-	-	-	-	-	602,927
Restricted							
Capital Projects	-	-	-	-	(70,409)	-	(70,409)
Workers Compensation	1,692	-	-	-	-	-	1,692
Debt Service	-	-	-	-	-	3,651	3,651
	<u>1,692</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>(70,409)</u>	<u>3,651</u>	<u>(65,066)</u>
Committed							
Open Space	9,700	-	-	-	-	-	9,700
Assigned							
Purchase on order	46,665	-	-	-	-	-	46,665
Other	-	1,668,904	229,482	4,915,888	-	-	6,814,274
	<u>46,665</u>	<u>1,668,904</u>	<u>229,482</u>	<u>4,915,888</u>	<u>-</u>	<u>-</u>	<u>6,860,939</u>
Unassigned	<u>6,975,440</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>6,975,440</u>
Total fund balances	<u>7,636,424</u>	<u>1,668,904</u>	<u>229,482</u>	<u>4,915,888</u>	<u>(70,409)</u>	<u>3,651</u>	<u>14,383,940</u>

4. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

A. Litigation

The Town is a defendant in various actions, all of which are within the limits of the Town's insurance coverage. Counsel for the insurance carrier is defending these claims. Consequently, an unfavorable decision in any of the actions will not have an adverse effect on the Town's financial condition.

The Town is also defendant in numerous tax certiorari proceedings, the results of which generally require tax refunds on the part of the Town. However, the amount of possible refunds cannot be determined at the present time. Any refunds resulting from adverse settlements will be funded in the year in which the payments are made.

B. Risk Management

The Town maintains various conventional liability insurance policies to protect against potential losses. The general liability policy provides coverage of \$3 million. The Town's public officials and law enforcement liability policies provide coverage of \$1 million each. In addition, the umbrella policy provides coverage up to \$10 million. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years.

In addition, the Town purchases conventional insurance for workers' compensation benefits and purchases conventional health insurance from various providers.

C. Contingencies

The Town participates in various Federal grant programs. These programs may be subject to program compliance audits pursuant to the Single Audit Act. Accordingly, the Town's compliance with applicable grant requirements may be established at a future date. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the Town anticipates such amounts, if any, to be immaterial.

5. OTHER MATTERS

On June 24, 2011, the NYS Governor signed Chapter 97 of the Laws of 2011 ("Tax Levy Limitation Law"). This applies to all local governments.

The Tax Levy Limitation Law restricts the amount of real property taxes that may be levied by a Town in a particular year, beginning with the 2012 year. It expires on June 16, 2016.

The following is a brief summary of certain relevant provisions of the Tax Levy Limitation Law. The summary is not complete and the full text of the Tax Levy Limitation Law should be read in order to understand the details and implementations thereof.

The Tax Levy Limitation Law imposes a limitation on increases in the real property tax levy, subject to certain exceptions. The Tax Levy Limitation Law permits the Town to increase its overall real property tax levy over the tax levy of the prior year by no more than the "Allowable Levy Growth Factor," which is the lesser of one and two-one hundredths or the sum of one plus the Inflation Factor; provided, however that in no case shall the levy growth factor be less than one.

5. OTHER MATTERS (Continued)

The "Inflation Factor is the quotient of: (i) the average of the 20 National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the coming fiscal year minus the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the prior fiscal year, divided by (ii) the average of the National Consumer Price Indexes determined by the United States with the result expressed as a decimal to four places. The Town is required to calculate its tax levy limit for the upcoming year in accordance with the provision above and provide all relevant information to the New York State Comptroller prior to adopting its budget. The Tax Levy Limitation Law sets forth certain exclusions to the real property tax levy limitation of the Town, including exclusions for certain portions of the expenditures for retirement system contributions and tort judgments payable by the Town. The Town Board may adopt a budget that exceeds the tax levy limit for the coming fiscal year, only if the Town Board first enacts, by a vote of at least sixty percent of the total voting power of the Town Board, a local law to override such limit for such coming fiscal year.

6. RECLASS ADJUSTMENT

The following RECLASS adjustment was made to the Town's beginning net position for the Fiduciary Funds Private Purpose Trust:

Net position, originally reported	\$1,127,697
Adjustment	(459,247)
Net position, as restated	\$ 668,450

In the previous period certain Trust and Agency funds were combined with the Private Purpose Trust funds. Upon reconciliation, these funds were segregated appropriately for net position, as restated.

7. FUTURE CHANGES IN ACCOUNTING STANDARDS

GASB has issued Statements No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*, and No. 68 *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. The objective of Statement No. 67 is to improve financial reporting by state and local governmental pension plans. Statement No. 67 replaces the requirements of Statements No. 25 and No. 50 as they relate to pension plans that are administered through trusts or equivalent arrangements that meet certain criteria.

Statement No. 68 establishes accounting and financial reporting requirements related to pensions for governments whose employees are provided with pensions through pension plans that are covered by the scope of Statement No. 68, as well as for non-employer governments that have a legal obligation to contribute to those plans. The Town is required to adopt the provisions of these Statements for the year ending December 31, 2015.

GASB has issued Statement No. 69, *Government Combinations and Disposals of Government Operations*. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The term *government combinations* include a variety of transactions referred to as mergers, acquisitions, and transfers of operations. The Town is required to adopt the provisions of this Statement for the year ending December 31, 2015. A prospective basis should be applied and early adoption is encouraged.

7. FUTURE CHANGES IN ACCOUNTING STANDARDS (Continued)

In April 2013, the GASB issued Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*. This Statement establishes accounting and financial reporting standards for financial guarantees that are nonexchange transactions (nonexchange financial guarantees) extended or received by a state or local government. As issued in this Statement, a nonexchange financial guarantee is a guarantee of an obligation of a legally separate entity or individual, including a blended or discretely presented component unit, which requires the guarantor to indemnify a third-party obligation holder under specified conditions. The Town is required to adopt the provisions of this Statement for the year ending December 31, 2014. A prospective basis should be applied and early adoption is encouraged.

GASB issued Statement No. 71, *Pension Transitions for Contributions Made Subsequent to the Transition Date – an amendment of GASB Statement No. 68* that addresses an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or non-employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The Town is required to adopt the provisions of this Statement in conjunction with GASB Statement No. 68, for the year ending June 30, 2015, with early adoption encouraged.

The Town has not assessed the impact of these statements on its future financial statements.

(1) Assessed valuation of transmission lines of Consolidated Edison and Verizon

(2) Provided by the New York State Office of Real Property Services

(3) The Town has a complex rate structure that would make such a calculation extremely difficult, since its revenue base cannot be sufficiently segregated for each applicable rate. The Town substituted an effective tax rate instead.

Note: Estimated actual taxable value is calculated by dividing taxable assessed value by the state special equalization rate. Tax rates are per \$1,000 of assessed value.

Valhalla	19,830,000	11.18 %	<u>2,216,994</u>
			84,257,293
Town direct debt			<u>15,099,000</u>
Net direct and overlapping debt			<u>\$ 99,356,293</u>

(1) Excludes the amount available for repayment in the Debt Service Fund

(2) The percentage of overlapping debt applicable is estimated using taxable assessed values. Applicable percentages were estimated by determining the portion of the Town's taxable assessed value that is within the government's boundaries and dividing it by the Town's total taxable assessed value

Source: Town of North Castle and County of Westchester Finance Departments

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of the Town. This process recognizes that, when considering the Town's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account.
