Re: Brynwood Application

Ladies and Gentlemen,

I write with regard to the Brynwood Application to ask that:

(1) Section III.D-2 of the VHB report be corrected to read the North Castle Landmarks Preservation Committee, and not The North Castle Historical Society;

(2) the pre-Revolutionary War Mile Marker (Mileage Marker or Milestone) "39 Miles from New York" that stands on Brynwood property be protected with a Deed Restriction so that we formalize that protection; (see <https://www.northcastleny.com/sites/northcastleny/files/file/file/16.pdf>, page 24 for more information);

(3) my appreciation be conveyed to the owners for the promise of protecting the golf course as open space and remind them that their property has been used as a Country Club since 1930 when Albert J. Stone sold to the Signal Hill Country Club, Inc. for a price said to be in excess of half a million dollars;

(4) any artifacts found on the property be gifted to The North Castle Historical Society.

If you are not a member of the North Castle Historical Society, please do join. If you would like to learn more about North Castle's varied and rich history, call or email me.

Thank you for helping to preserve all of North Castle's local history assets. If we do not preserve those assets, who will?

Regards,

*Sharon*
