---

The above referenced application was reviewed by the Residential Project Review Committee (RPRC) on July 2, 2019.

The Committee determined that Planning Board and Architectural Review Board approval of the proposed project is NOT REQUIRED.

However, the following issues will need to be addressed prior to the issuance of a building permit:

- Existing topography shall be provided to help demonstrate where the patio area and overall site drain. The applicant shall clarify if there are any stormwater improvements installed to help mitigate the increase in runoff generated by the patio.
- All notes not applicable to this application shall be removed from the Site Plan.
- The Building Department will need to determine whether gross land coverage backup information is required to be submitted for review.

At this time you may coordinate directly with the North Castle Building Department. DO NOT START CONSTRUCTION WITHOUT A VALID BUILDING DEPARTMENT PERMIT.

If you would like to further discuss this matter, please do not hesitate to contact the Building Department.
